

NUFA Policy - Striking Faculty Associations

Approved April 20, 2016 by the NUFA Executive

Purpose: To establish the guidelines by which NUFA provides financial support to striking faculty associations.

Policy: *In the event that a fellow Member organization in the Canadian Association of University Teachers initiates a legal strike action, NUFA will normally donate \$500 per week to the striking faculty association.*

General: The above policy does not preclude the Association from considering a different amount in support of striking faculty associations, or supporting those that are not members of CAUT, but simply automates the support for member associations without need for formal meetings/motions. This also requires attention to the state of negotiations at member associations across the country.
